## Guided Hunts

in Wyoming's wilderness!

[www.bearbasinadventures.com](http://www.bearbasinadventures.com)

## Bear Basin Adventures

Thank you for your interest in Bear Basin Adventures. We are first class, full service outfitters in Dubois, Wyoming. Our camp and surrounding mountains are our home and it is our pleasure to share them with you.

We are committed to your safety, enjoyment and hunting success. Offering a true western elk hunt; we provide quality staff, horses and equipment in rugged mountains where there is great habitat and an abundance of healthy elk. Our hunts are fair chase, with no fences or feeders and little public pressure- making for brilliant hunting. Our success rate will stand up to anyone's anywhere. Being in the business many years, we understand what you want out of a hunt and we provide that for you. Come join us on the Wyoming hunt you have been dreaming about.

## The Camp

Our camp is located in Northwest Wyoming outside of Dubois. We are on the edge of the remote Washakie Wilderness of the Shoshone National Forest. A first rate camp, we provide an abundance of great luxuries and will not set limits on the amount you can bring in. Each hunter sleeps in a comfortable wall tent with wood stove, cots, floor and propane lights. Running spring water through camp and hot showers are nice extras.

Meals follow the same high standard as the rest of the camp- plentiful and pleasing.

Horses are an important part of your hunt and we own safe, experienced and steady mounts that will get you to the field without any problems. Short horseback rides will put you right where you will need to be to harvest your animal.

Our hunt area is the Bear Creek drainage; area 67. We are a General Area on your license application. Hunting in Wyoming requires you to apply for an elk license in January of the year you hope to hunt. We can help you in this application process so please inquire.

## Dates

### Bow Hunting

*The ultimate in hunting for elk!*

*\* September 1-30*
